## How To Install The Bag With Sissy Bars On Luggage Rack And Backseat

### Step 1

1-Refer to diagram (Fig B.) use the included silver rod to adjust the width of the saddle stow mounting straps to fit snugly around your bike sissy bar pad. The rod can be inserted to make the narrow or wide. You can also insert the rods at an angle if your sissy bar pad not rectangular.

2-Make sure the rods are fully inserted, through the top securing loop and solidly into the bottom securing loop. Once in place, tightly close the Velcro flap that is above each set of top securing loop.

### Step 2

Place the bag the luggage rack while inserting making sure the backrest in the mounting pocket.

### Step 3

Each bag also has two quick-release nylon straps, located on either side of the bag. These straps must be wrapped around the uprights (saddlebags support, turn signal upright, frame rail etc.) and the attached to the corresponding buckles on each side. Ensure that the straps are tightened such that the bags are securely held in one place.
