VIKING DIRTMAN ENDURO DIRT BIKE SADDLEBAG INSTRUCTION

Parts

Saddlebags (Left and Right)
Seat straps x 2
Hooking Strap x 1

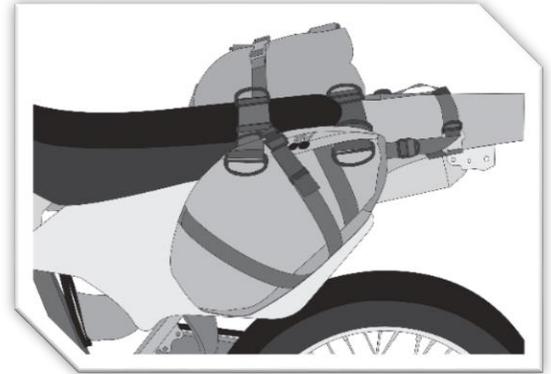

Fig (A)

Instructions

Step 1

Place the Viking Dirtman Enduro Dirt Saddlebags on top of the bike as shown in the Fig (B). Make sure that the top of the bag aligns with the top of the seat.

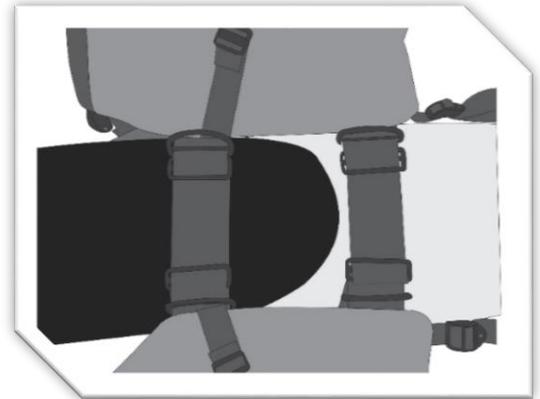

Fig (B)

Step 2

Take the Hooking strap and hook the metal hooks to both sides of the fender and pull the straps to generate tension so the hooks hold on the fender securely.

Step 3

With bag and the Hooking strap in place, take the free end of the hooking straps on both sides and attach it to the buckles on the rear side of the bags.

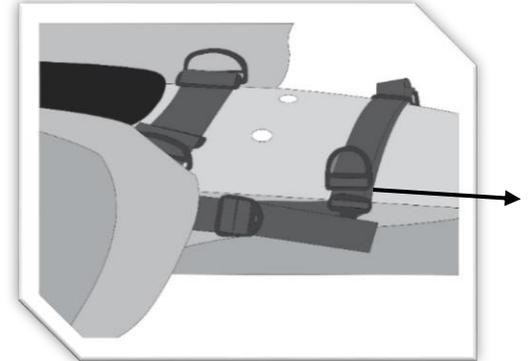

Fig (E)

Step 4

Starting with the left side, run the front strap on the left bag around the sub frame tube right below the side panel. Run it around the tube inside out and then buckle it back to the bag and tighten. Repeat for the opposite side.

Fig (F)

📋 Note

Front strap on the exhaust side will run very close to the exhaust pipe. Ensure that it is as far away from exhaust as possible when you run it around the sub frame tube.

⚠ Warnings

- ✓ Avoid usage of any mounting part that is impaired or is not working properly.
- ✓ If you are not secure about the installation of the saddlebags, do not use them.
- ✓ Sporadically check for shifting of the bag and verify that no part of the mounting system is interfering with any part of the motorcycle while riding. This includes the drive train, suspension, brakes or wheels.
- ✓ It is important to note that if you do not mount these saddlebags properly damage may be caused to the saddlebags and/or motorcycle.
